

Nonwovens Applications

Classification	Application
Clothing	Clothing components (interlining, fusible interlining, wadding, bra pads, shoulder pads, jumper liners), disposable clothing (event jumpers, travel underwear), shoes (insole materials, upper leather, heel leather), badges, gloves, slippers, caps.
Protective materials	Protective wear (workwear, laboratory wear, protective wear), protective goods (safety shoes, working gloves, smoke masks, dust masks, gas masks).
Medical care	Surgical gowns, drape sets, delivery bed pads, caps, masks, sheets, antibacterial mats, cataplastm base materials, plaster base materials, gypsum materials, white blood cell separators, artificial skin.
Building materials	Roofings, carpets, carpet base materials, dew absorbent sheets, wall materials, soundproofing materials, vibration absorbers, plywood materials, curing sheets.
Civil engineering	Drain materials, fi materials, soil draw-out preventing materials, separating materials, water-shielding sheets, reinforcing materials, erosion preventing materials, concrete molding sheets, asphalt overlay materials, repair materials for underground pipes, anti-corrosive materials.
Vehicles	Automobile interior (door mats, door trims, trunk mats, headlinings, rear parcels, upholstery, head rests, hood covers, sound absorbers, vibration absorbers), automobile parts (air cleaner, oil cleaner, compartment air-cleaner filters, fresh air intake filters).
Sanitary and hygiene	Diapers (diapers, diaper covers), feminine sanitary goods (napkins, tampons), first-aid kit (gauze, band aids, cotton swabs), cleaning goods (wet tissue, cosmetic cotton, milk pads, disinfectant wet cleaners, antibacterial deodorant sheets), wet towels, masks (three-dimensional disposable masks).
Furniture, interior	Carpets (carpets, carpet base materials, carpet tiles, electric carpets, mat base materials, under-carpets), floorings, furniture goods (cushion materials, waddings for sofas), shoji paper, tatami mat materials, blinds, wall covering materials, decorative goods (pennants, roll screens, artificial flowers).
Wipes	Wipes, wet wipes, oil filter wipes, copier cleaning materials.
Filters	Air filter (for coarse dust, for medium to high performance, for super-high performance), bag filter, liquid filter, electret filter, vacuum cleaner filter, filter press, wastewater treatment mats, salt removing filter, gas adsorption filter household air-cleaning filters, water purifier filters.

Classification	Application
Bedding	Futons (futon wadding, futon covers), pillow covers, sheets.
Agriculture Horticulture	Greenhouse sheets, seedbed sheets, direct covering sheets, frost-proof sheets, water-shield sheets, weed preventing sheets, horticulture planters.
Leather	Substrate materials for artificial leather, substrate materials for vinyl chloride leather.
Other household materials	Storage goods (stock bags, suit covers, insect-proof covers), packaging materials (furoshiki, packaging materials); Cleaning goods (chemical mops, scrubbing brushes), bags (chemical heating pads, desiccant bags, shopping bags); Food use (tea bags, coffee bags, food bags, freshness preservatives, water absorption sheets for food), miscellaneous household goods (calendars, anti-slip sheets, eye masks, book covers, deodorant sheets, aromatic base materials), kitchen goods (dewatering sheets, cooking paper, scrubbing brushes, roll towels, fire extinguisher sheets), table tops (table cloths, luncheon mats, coasters); Office goods (stamp pads, felt pen tips, signboards, whiteboard erasers, envelopes). Sports goods (head cover of golf clubs, tennis grips). Embroidery goods, ironing mats, cosmetic materials.
Other industrial materials	Industrial materials (abrasives, oil absorbing materials, paper-making felts, pressure rolls for iron-making, heat-resistant cushions, concrete molding sheets, heat-insulating materials, soundproof materials, anti-vibration materials), Electric materials (electric insulators, base materials for printed circuit boards, electromagnetic shielding materials, static electricity removal sheets, binder tapes for electric cables), battery separators, product materials(FRP base materials, tapes, base materials for printing. synthetic paper, electrostatic recording paper, adhesive tape, heat transfer sheets, radiation shielding mats) OA devices (disk liners, packaging materials), AV devices (speaker cones, sound absorbing plates), rolls (buff rolls, coating rolls, liquid squeezing rolls), machine parts (V-belts, conveyor belts, timing belts), musical instruments (piano key cushions, hammer rails), packaging materials (dry-ice packages, packing).
